DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE		
<p>This house is located on the north side of Chewsville Road, about 3/4 mile west of Md. Route 66 in Washington County. It is situated on an area of level ground and faces south.</p> <p>The structure is a two-story, three-bay brick dwelling which has been painted white. A shed roofed el extends to the rear or north of the structure.</p> <p>The walls are set on very low fieldstone foundations. Bricks are laid in common bond at all elevations with decorative flat arches over the openings. A cornice of decorative brick corbeling finishes the eaves.</p> <p>Windows are rather large in size and six-over-six light double-hung sashes held within narrow frames. In a 1929 photograph of the building published in the <u>Baltimore Sun</u>, three panel shutters can be seen at lower story windows.</p> <p>The main entrance is located in the west bay of the front or south elevation. Recent brick work around the door provides evidence that the entrance has been altered. The 1929 photograph shows a Greek Revival style entrance with a broad diamond pane transom flanked by matching sidelights. A modern porch now completes the entrance. A two-story porch extends along the east wall of the el.</p> <p>The roof is covered with sheet metal and terminates at a low stepped parapet at the end walls. Matching chimneys with corbels at their tops are located inside each gable end.</p> <p>The house is in excellent condition and stands on a tract containing 129.7 acres.</p>

STATEMENT OF SIGNIFICANCE

The area of significance of this house is its architecture. Constructed of brick in a rural adaptation of the Greek Revival style, it is representative of the County's mid-19th century domestic architecture. Although the exterior has been altered, the structure appears to be in excellent condition.

Known locally as the John George farm, the property was listed under ownership of J. George on an 1859 map of Washington County.
